

January 2020

## New beginning for NTG in China

Dear Customers and Partners

We are very happy to announce that the take-over of Go-Trans Limited by NTG Group has now been fully finalized. The name change of the companies is still in process and expected to be concluded by the end of Q1 2020.

In order to provide our customers with a more professional, reliable and aligned service, we are announcing a new operational model starting on the 1<sup>st</sup> of January 2020. We have established country level operational teams which will serve you both locally and globally based on the transportation mode in question.

We have 24 skilled and highly motivated professionals with more than 150 years' of logistics experience in our organization. We have also hired new energy to enhance our growth and we are still looking for new professionals to join us in our locations in Shanghai, Qingdao and Shenzhen. If you know of any skilled and motivated individuals who could support our organic growth in China, please do not hesitate to give me a hint.

In the near future we will announce our new contact information. It will simplify and speed up the communication with us as You will only have one email address per transportation mode in question.

Kind regards,

Teppo Siivonen  
Chief Operating Officer
